

Key Benefits of Partnering with Food, Operations, Culinary and Nutrition Experts

Choosing a collaborative partnership in dining services means educators can focus on their main priority – putting students first.

How Chartwells Can Help

1 Happy Cafeterias

- Welcoming cafes foster a sense of belonging and happiness
- Innovative programs encourage discovery and fun
- Additional points of service, including mini food trucks and mobile carts, decrease wait times
- Communication and outreach improves satisfaction for students, parents and staff

2 Empowered Associates

- Transition expertise at every step of the way for seamless implementation
- Training and career advancement opportunities
- A well-supported on-site management team

3 Financial Well-Being

- Operational expertise at the local, regional and national level with guaranteed financial performance
- Capital investment to enhance student engagement
- Cost savings through the buying power of Foodbuy, Compass Group's purchasing organization

Serving Up Happy & Healthy

At Chartwells, our goal every day is to make sure students leave the cafeteria happier and healthier than when they arrived. We do this by serving food kids love to eat, giving students a voice and ensuring our cafeterias foster a sense of belonging in an often hectic world.

By partnering with Chartwells, your students will experience programs that promote fun and discovery:

- Discovery Kitchen makes nutrition education fun and entertaining. Chartwells' chefs and dietitians work together to create curriculum and conduct events that get kids cooking, trying new foods and learning about what they're eating.
- Student Choice brings the latest food trends to school cafeterias and gives students a voice in deciding what food concepts are featured on their menus.
- Mood Boost helps elementary and middle school students connect what they eat with how they feel. The program features recipes and characters that focus on six moods: Smart, Happy, Confident, Alert, Strong and Calm.
- Global Eats encourages students to try new foods, allowing students to experience the authentic cuisine of other cultures.

At Chartwells, **our greatest strength is our people.**

Our associates create an experience like no other by bringing our vision to life. We empower our associates to create happier, welcoming spaces for students to feel comfortable and engaged.

Chartwells provides a cafe environment like no other by listening to what your students want with the end goal of **Serving Up Happy & Healthy.**

K-12 Child Nutrition Services is Our Only Business

Chartwells is the specialized public education sector of Compass Group. We customize each and every school lunch program based on what is important to the districts we serve. Our unique approach to partnership leverages the cutting-edge innovation, data and resources that come with being part of the world's largest foodservice management company while utilizing district staff, local chefs, dietitians and the best management expertise in the industry. We improve school nutrition with variety and flavor so meals are healthy, balanced and enjoyable for our students and financially sustainable for our clients. A partnership with Chartwells allows administrators to focus their energy on educating students while we focus on running the biggest and best restaurant in town – all while making sure your students are **happy** and **healthy**.
