

NEW ENGLAND

PROUDLY SERVING OUR COMMUNITY

For more than 75 years, the Beacon Mobility companies in New England have led the industry in providing safe, reliable, and exceptional home-to-school and special education transportation to the children in our communities. We utilize cutting-edge technology, best-in-class safety programs, and the most caring drivers in the industry to ensure that we are the best start and end to every child's school day.

Beacon Mobility is about people. We are a dedicated, passionate, and diverse group who pour our hearts and souls into caring for the precious cargo we transport every day. The Beacon Mobility family of companies brings critical Special Education, Paratransit, Non-Emergency Medical, and Standard School transportation to communities in 22 states in the US. And we love what we do.

Beacon Mobility is more than a team. We're a family, driven by compassion. Everything we do is viewed through the lens of how it can enhance the lives of our employees, our customers, our passengers, and our communities.

We show up every day to ensure that everyone has equal access to the programs that help them live, learn, and achieve. We are honored and humbled to be able to do our part to provide Mobility Without Limits.
